| Box      | cardboard box 6,5 × 9 × 2 cm                           |
| Weight   | 80 g   |

Designed as a teaching aid.

The process of inventing questions on general or specific mathematical subjects is a creative activity which allows players to get familiar with the subject they are studying or simply interested in.

Each pack contains 54 cards.

Pens or pencils can be used to write on the cards.
